

Business and accounting support for professional services

Our services

Whatever professional services industry you are in:

Medical

Legal

Real estate

Consulting

Architectural

Marketing

Trusts and fiduciaries

Captive insurance

Fund administrators

As with most businesses, you may spend more time working in, rather than on your business.

- We can help you focus on your core business goals without utilising resources on the smaller tasks or projects which fall by the wayside.
- We can provide the support required and can be a strong, trusted business partner for the future
- We want to help you work towards achieving your goals.

What we can offer you

Our experienced professional services team can relieve you of the pressure allowing you to get on with the important job of dealing with clients and growing your businesses.

At Grant Thornton we have been supporting the professional services sector in the Channel Islands for over 40 years. As a member firm of Grant Thornton International we also have access to the expertise of other member firms in over 143 countries.

We understand how to successfully manage your firm, at whatever stage of the business lifecycle it is:

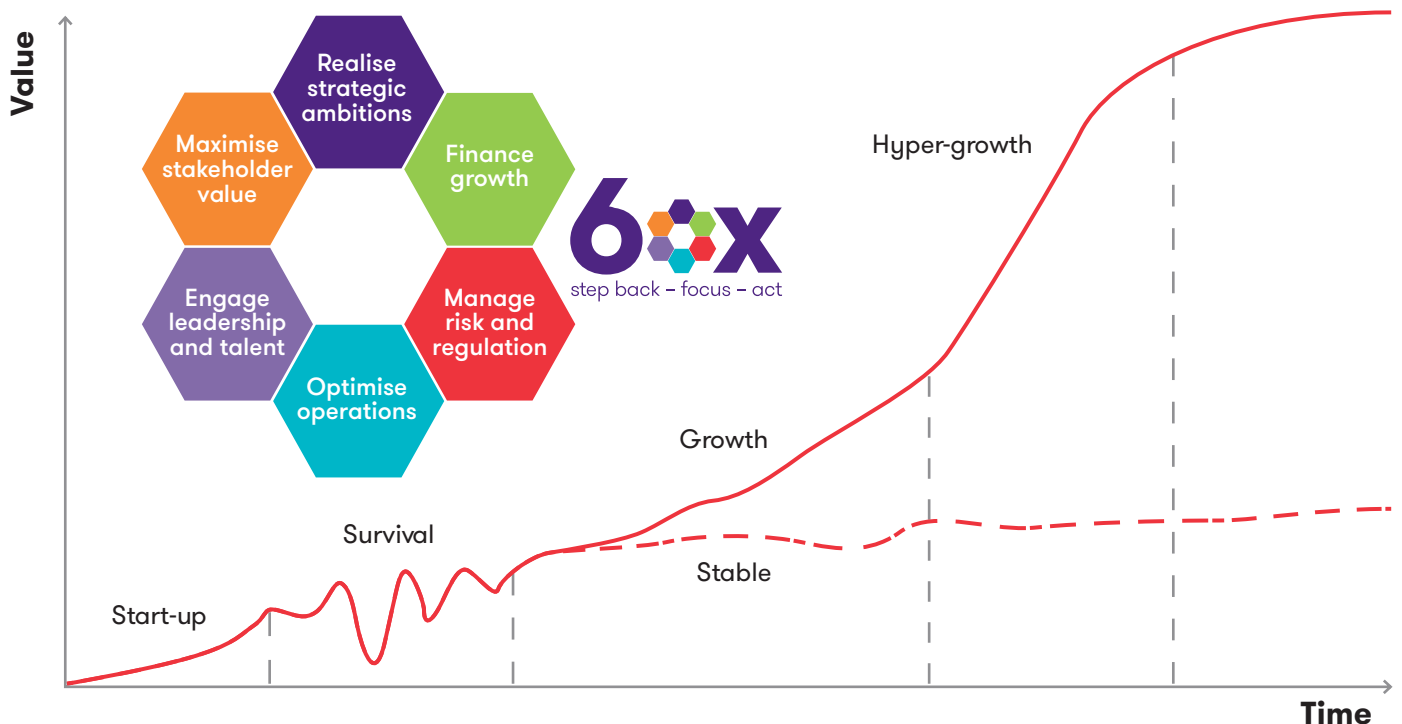

- Start Up
- Survival
- Growth
- Maturity

and we can tailor our services to your specific needs.

Helping businesses grow

The 6-Box framework enables wider and more meaningful conversations, through understanding the strategic opportunities and challenges organisations face.

The 6-Box approach, can be used to create a detailed action plan to help develop businesses, by focusing and directing growth from six key areas.

Processes

An effective professional services practice will need effective and efficient processes that covers:

An effective professional services practice will need efficient processes. These are not just limited to the financial workflows.

Process improvement is a key feature of many Grant Thornton Software applications. These applications serve to automate processes that are added into the software suite.

Once the processes are run via the software, our managers and directors can then see where improvements are needed within the process by looking at process completion times involved.

Systems

Professional practices rely on systems to deliver effortless and seamless business support.

The use of technology is a crucial component in delivering a high-quality service. We have expertise in the Channel Islands on data integrity, information security and technological improvements.

With the quantity of information available to us, utilising the right information is key. Business Intelligence systems help draw out the important analysis of data to aid decision making.
