Our expertise

Trust in your local tax advisor

The world of tax has seen significant changes in the past year with UK Corporation Tax now applying to UK owned property, the Mandatory Disclosure Rules, changes to Country by Country regulations and the introduction of the Economic Substance Law, to name just a few.

Locally, we expect changes to independent taxation, the prior year basis of assessment and significant government tax initiatives to plug the deficit created by the pandemic.

Never has it been more important to seek independent advice from a local tax professional.

Why choose Grant Thornton over another firm?

We have the same breadth of knowledge and services as the other competitors, but are able to provide a more bespoke personal and local service.

We are locally based, so offer accessibility and availability as well as on the ground expertise of operating in and from the Channel Islands.

We offer a single point of contact that provides for efficient working and consequently, more cost effective client take-on and administration.

A team of 23 locally experienced tax professionals located equally across both islands.
